America's Only Smart Utility Sport Model

This is the only car built in America today that combines the smartness of the sport model with economy and utility.

It is a strikingly smart, stylish car, entirely original-looking with a design all its own.

Extreme measures have been taken to give it a most exquisite finish in a rich gray, trimmed with black enamel and brightened with an occasional flash of polished nickel.

A fashionable dash of color is added to its striking lines by the red wire wheels.

The individual front seats, with aisleway between, are adjustable forward or back, to suit the reach of the driver and his companion.

The rear seat is roomy for two. Front and back, four large people ride sociably in real comfort.

It has four-inch tires and cantileverrear springs-buoyant riding!

The motor is powerful, it is surprisingly economical in the use of gasoline as compared with other cars of similar size.

Let us show you the car now.

CHANDLER SIX

Chandler Records Are Owners' Records

Not to our knowledge has a professional motor car driver ever made a record with a Chandler Six.

But all the thousands of owners of Chandler Sixes, every day, are making the kind of records that count. Records of satisfactory service.

The Chandler Company has never built a racing car. Chandler owners do not want racing cars.

The 55 to 60 miles per hour speed that every Chandler car will do is speed much greater than you would ever ask for.

The Chandler Company has

never built a special mountainclimbing car with short wheel base and low gear ratio.

The ease with which every Chandler climbs steep grades on high gear is satisfying to the Chandler owner.

The Chandler Company has never supplied any Chandler dealer anywhere with a special gear ratio for demonstrating purposes.

What any Chandler Six does your Chandler Six will do.

The manufacturer of one six can make just as big claims as the manufacturer of any other six. But

The Chandler is a Fact-Car, Not a Claim-Car, and These Are Facts, Not Claims

There is no other six more flexible in control, more responsive to your every demand, than the Chandler.

There is no other which will pull hard grades on high with greater ease. There is no other so economical in operation.

There is no other which embodies in its design and construction so many features characteristic of high-grade high-priced motor cars.

There is no other of more beautiful body lines or greater riding comfort.

IN SHIP TANGLE

PLANS TO INTERCEDE IN DEN-MAN-GOETHALS ARGUMENT AND STOP DELAY.

By Associated Press. Washington, July 21.-President Wilon has made up his mind to intercede opeless and the general would resign the president thought that would solve the problem. It is understood that the president may have asked General Goethals to give him time to go into the situation.

Difficulties between Chairman Denman of the shipping board and General gency fleet corporation, starting over the board's wooden ship plans, came to a head last week when the president authorized the fleet corporation. to build ships and directed the board

Goethals Is Halted.

millions of dollars and wanted to week members of the board and gen-

Denman Alleges Progress. bunced that progress was being made ind that a completed program on which everybody would agree was in sight, there have been persistent repers of the board are said to be inlined to take the side of General Goehals when disputes arise.

ation tonight. Although in signing the shipping board fleet corporation the powers conferred them by congress, he followed the suggestion of Mr. Denman, it is known that the president would be reluctant to lose Gen eral Goethals' services.

Possible Solutions.

There is reason to believe, too, that the president would hesitate to displace Mr. Denman. Officials in close touch with the situation think the president may adopt one of three

He could leave the status of both officials very much as it is and make a personal appeal to both to bury their differences and work in harmony. Again, he could give full powers to

General Goethals and direct the shipping board not to hamper him in any Another way suggested is that he

rould give Chairman Denman full authority and ask General Goethals to render a patriotic service by following the shipping board's plans.

Many believe the present disagreement might be settled by the president himself formulating a program, from what both General Goethals and the shipping board has to offer, but possibilities of future clashes still are seen by those who believe temperamental differences between Denman and Goethals cannot be harmonized.

CONFESSES TO TRIPLE MURDER THEN CHANGES WORDS TO SAY ONLY ONE CRIME

By the Associated Press. Johnstown, Pa., July 21.—George C Tomkins of Philadelphia, who Thursday confessed to the murder of Edmund Humphries, a prominent coal operator, Mrs. Humphries and their fifteen-year-old son, last night repeated his confession, according to Warden Knee of the jail today. Fompkins, last night, according to the warden, declared Humphries killed his wife and son, tried to kill Tompkins and then attempted suicide and was killed by Tompkins, after the latter had chased Humphries across a corn

PROMINENT TEXAS ATTORNEY IS NOW OUT WITH THE FACTS

W. ASHWORTH DECLARES TANLAC HAS PROVEN TO BE CORRECT THING AND HE REC-OMMENDS IT.

"I have used four bottles of Tanlac and it has convinced me of the fact that it is the right medicine for troubles like I had, and I am more than glad to let other people know of the benefits I have derived from it." statement was made by B. W. Ashworth, a prominent attorney and counselor at law of Dallas, Texas, recently "For five years," Col. Ashworth continued, "I suffered from weakness. shortness of breath and general debility. I had no appetite at all and never injoyed anything to eat. My vitality got at a very low ebb, I was sluggish and tired most all the time and had a shortness of breath that prevented me from taking much exercise. I couldn't of ther walk fast or far, as my strength would soon play out. I suffered from onstipation all the time, was very ervous and got so little rest and sleep at night that I would get up in the mornings all tired-out and couldn't throw off my weak, debilitated feeling

"I felt that something had to be done and finally I resorted to Tanlac and just let me say I have found it the proper thing for me. It started my roubles on the retreat in just a few days and now I am able to eat anything and enjoy it. I have overcome that tired, weak condition and my nerves are as strong as anybody's and my vitality is splen d. I sleep fine all night and get up in the morning feeling rested and fit for my duties. feel stronger and have more vim and energy than I have in years. I have also gained six pounds in weight and cheerfully recommend Tanlac to any one needing a general, all-round strengthening out and building up." Tanlac is sold in Waco by Morrison's Old Corner Drug Store under the personal direction of a special Tanlac representative.—Advertisement

PARIS IS BUILDING UP IN WAKE OF BIG FIRE

"How is Paris faring after the big fire?" was asked of C. C. Smith of Paris yesterday while in Waco. "We have more houses and better houses now than we had before the fire, and our banks have \$2,500,000 more money on deposit than they had before the fire. The town is building all the while-got a new wholesale house of large calibre this week; streets are being widened and paved." And thus Mr. Smith talked of prosperity in the North Texas city. Smith was in Waco on business, having commercial interests here,

Two Amazing Cars

We have two amazing cars to show you which are built in eight new body styles.

They are built in the finest plant in the world, devoted to high-grade cars. They are built under John W. Bate, the great efficiency engineer, by methods which he has developed.

They embody the result of 14 years of scientific motor car study.

How They Differ

They differ from other like-class cars in a hundred attractive

The Mitchell has 31 features-like a power tire pump-which nearly all cars omit. It has luxuries and beauties rarely found, even in costly cars.

Both cars combine all the attractions which experts found in 257 new models.

And every vital part is built to the standard of 100 per cent overstrength. That is twice the usual margin of safety.

Know the Results

These are the most complete cars on exhibit. They are the handsomest cars in their

Their performance will delight you. Their comfort will surprise you. No shock absorbers are ever added to a Mitchell car.

Their endurance has been proved byrunning two Mitchells over 200,000 miles each. Their strength has been proved by the trifling repair costs. In two years not one Bate spring has broken.

These are the cars which

ERVE YOUR COUNTRY! ELIMINATE WASTE!

> Every farmer, every merchant, every manufacturer, wholesaler and distributor is today confronted by the problem of lowering the "overhead" cost of doing business without curtailing volume of production or business. Indeed, patriotic response to government appeal means INCREASING business and lowering cost. This can't be done, of course, if present methods are the best and most efficient. But are they?

If You Still Cling to Old Delivery Methods You Are Practicing Useless Extravagance

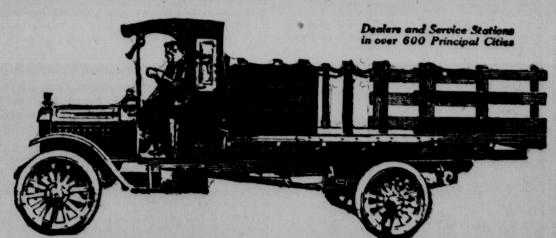

The motor truck has revolutionized Haulage and Delivery methods. But "a" truck may be even more of an extravagance than the old horse or mule. Especially is it true that the hybrid trucks made by mating a truck body to a touring car chassis, are impractical, unreliable, wasteful and unsatisfactory. And when it comes to real trucks, there is still a wide field for exercising discrimination and sound judgment. There are many good trucks on the market, but we believe that investigation will prove that there none better than

THE DURABLE CAR.

By Walt Mason.

A man may take his Haynes Light Six and run it in a pile of bricks, and bust it up to some extent; get lamps and radiator bent. Or he may wind it round an oak, and get the wheels and fenders broke.

But if he gives it decent care, and wants to see how long 'twill wear, he'll drive it round and round the earth, before it finds a junk-yard birth.

The Haynes car was the pioneer: they built it in a long gone year; and cars they built long, long ago, still gayly journey to and fro. They're out of date, and cause remark; they look like boats from Noah's ark, and yet they were so staunchly made they keep right up with the parade. Haynes still is building cars that

way-to last forever and a day. The millionaire can purchase cars as often as he buys cigars. But common gents, like you and me, can't blow ourselves so wild and free. We've saved our money, dime by dime, and earning it took lots of time. And when at last the sign denote we can at last afford a boat, and give our wives and maiden aunts the kind of frolic that enchants, we want the kind of cars that run until our earthly race is done. Now, any man can build a car that looks as smooth and slick as tar; some paint and brass and nickle plate will make the thing look simply great. And when the greenhorn goes to buy, these zaudy doodads please his eyes. He blows his hard-earned money in, and then his grief and tears begin. "But how," the green one asks, "can I find out the kind of car to buy?"

And I would say to such as he, "The car that has a history, that proved itself in days gone by, is save for any man to buy."

We judge the present by the past. The Haynes car is the car to last.

EVERYWHERE IN DORT.

"Take me back to old New Hampshire," and back to New Hampshire their sturdy Dort took them-yet only eighteen miles away. "Take me to the rolling hills and rural farms in Virginia," and in an hour the Dort was there, up in the hills of Sunland. "I'd like some excitement; take me to Zulu land," and no sooner said than done. Their Dort took them to the river bed where an army of haif-clad South sea natives made the scene seem real. "The dizzy heights of Alpine ways appealed to me," said one, and on up the winding road the driver guided the car-no snow, to be sure, but such a panoramic view to the east, to north, to south and west!" Where? Why modest old golden California, of course.

LONG NO-CHANGE DRIVE.

Mrs. C. F. Crank of Los Angeles is heralded by the Pacific Coast Press as the first woman to drive from the "City of Angels" to San Francisco without changing gears.

Mrs. Crank drove a Dort car and is credited with making the run of 430 miles in sixteen hours and eighteen minutes. Twenty-one and one-half gallons of gasoline and one quart of oil were used.

A set of high-grade band instruments at about one-half price. Instru-ments of all kinds repaired. Prices reasonable. Charles Parker, Waco, Texas, 508 1-2 Franklin St.-Adv.

Save Three

Hours out of

Every Four

Every minute wasted on the road by slow, inefficient hauling and delivery costs you real money. Horses take from three to four times as long to cover the ground as it will take you when you install Smith Form-a-Trucks in your service.

Three to four miles an hour is the best horses can do with a ton load. Smith Form-a-Truck replaces the slow, time wasting walk of horses with a speed of from ten Your Horses

And it costs no more to buy a Smith Form - a - I ruck than it does to buy a good pair of horses equal to the work of hauling a ton load. If your hauling or delivery to fourteen miles an hour under every condition of work. requires all-day service every working day of the year,

takes time out for rest, never has to lay off the job. It works steadily day in and day out, always maintaining its high speed, always moving its load quickly, easily, and at lower cost than any other form of service you

Records of service obtained from over 18,000 Smith Form-a-Truck users show a ton mile cost of less than 8 cents. And the first Smith Form-a-Truck ever sold has been in service four years, covered 20,000 miles and cost only \$8 for repairs.

Get a Smith Form-a-Truck, attach it to any Ford, Dodge Bros., Overland, Buick. Chevrolet or Maxwell chassis and end your excessive hauling and delivery costs.

Put your hauling problems up to us. It doesn't cost you a cent to learn just how much money we can put back into your pocket that you are now putting into horses.

GOODYEAR TIRE

EVERYWHERE ITS STABILITY WAS PROVEN IN RACE TRACK EVENTS.

nival, east and west, for automobile year Cord tires, according to members | pounds.

De Paima went the distance in 21

De Palma, who has tried out No-Hook tires in several races this season, wired as follows from Detroit after the race:

"I have proven to myself that Goodyear straight side tires will stay on the rim. I will never use any other

At Tacoma, too, Patterson made a new record for the track by winning a 150-mile race at the rate of 90 2-5 miles an hour. Patterson made no stops in the entire distance and his tires were Goodyear Cords. Durant, Rhodes and Malcomb, who finished second, third and fourth, were also Godyear equipped.

stop runs in this race.

At Uniontown, too, the story was the

One hundred and seventy-nine telegrams, directed to the Franklin factory at Syracuse, all stating how far traveled on a single gallon of gasoline on Friday, July 13, make up in the aggregate a complete story of present-day motor car thrift, that is national in its significance.

These telegrams gave the record of the national efficiency demonstration, conducted by Franklin dealers in practically every section of the country, and recorded a grand average of 40.3 miles on a single gallon of gasoline. Most notable among the runs was the one at New Haven, Ct., where Cowles Tolman established a new world's record for a stock car by running 82.8 miles on one gallon of gasoline. Detroit registered second, with a record of 71.6 miles; Akron third, with 69.4 miles, and Meriden, Ct., fourth, with 69.3

Eighty-six of the 179 entrants had individual averages of better than 40 miles. There were 19 Franklin cars which did between 50 and 60 miles on a gallon, and even such an unusual mileage as \$60 was exceeded by six dealers.

The manner in which the demonstration was conducted, conformed essentially to the accepted rules for economy runs. By setting aside a certain day on which to make the test, it was possible to get weather conditions that struck an average for the entire country. As it happened, during the day many points in the widdle west and along the Atlantic coast had rain and wet roads to contend with, while on the Rocky Mountains, in the greater part of the Mississippi valley, and in some of the southern Atlantic states, high winds were prevalent most of the time. In order to offset any advantage of wind or grade, it was required that cars double back over the same course traveled in the outward trip, and in so doing, it was planned to have the run terminate as nearly as possible at the same point as that from which the start was made.

All preparations, such as measuring the one gallon supply of commercial gasoline, inspection of the separate gasoline container and connections, taking readings of the speedomter, and checking the car to see that it conformed to the standard type, were conducted by 2 official observers. Before the start of the test the engine was run until all the gasoline in the carburetor was exhausted, after which the single gallon supply for the test was The last operation was one that in many occasions called for a word of caution for the participants, to avoid spilling even a few drops, for, as the driver might remark, "it only takes a drop or so to mean several hundred feet for us." Each oar was accompanied on its trip by both observers, who at the conclusion, made affidavit to the correctnes sof the result. No professional contest drivers took part in the demonstration.

Auto Tops, Seat Covers and Dust Hoods made in Texas by Clifton Mfg.

NEW JEFFREY TON

Announcement has been made by the lash Motors Company of a new one ton ffery truck, having a wheelbase of 130 thes. The price is \$1,450 for the chassis. is primarily a light duty truck, yet lesigned to stand up under unusual stresses if necessary. A glance at the hassis reveals clean, sturdy construction and the absence of troque arms and radius rods, due to the Botchkiss type of drive through the springs. Another feature is the Simplex type of governor, which automatically shuts off fuel supply after the truck has reached a speed of twenty miles an hour. This prevents speeding on the part of a careless driver, The rated load capacity is 2,000 pounds,

of the Goodyear organization, and several new records were established. One the driving wheels, the latest type of "A f was by De Palma at Detroit, where he beat Barney Oldfield in a 25-mile match race, three heats straight on a one-mile circular track.

These Waco Men Figure a Long Way Ahead

YOOD business men today believe that permanent success depends on giving the public the best possible value. This is the policy The Goodyear Tire & Rubber Company is trying to pursue.

Goodyear is not looking for mere temporary sales.

If we were we might offer the dealer an extra discount as an inducement to push Goodyear Tires.

But the public would pay the penalty in higher prices or inferior

Instead we turn that extra profit back into the tires-into more fabric and more rubber to make better tires.

Thus more consumers and more car manufacturers are using Goodyear Tires, and farsighted dealers, like those advertised here, sell them because they get more customers.

These Goodyear Service Station Dealers are satisfied with smaller profit per tire because they sell tires to more customers.

Think, then, the vast amount of savings that these Goodyear Dealers help put back into additional material, to make better tires for you.

An extra "inside profit" to the dealer, of 10 per cent on a \$25.00 tire, would be approximately \$2.00.

But the Goodyear Service Station Dealers of this inside profit for the sake of handling tires on an enduring, value-for-value basis. They get their profit on the volume of business which Goodyear quality brings to them.

They sell the product best for the consumer because they are good business men-figuring a long way ahead.

Four-Passenger Touring-Roadster

\$935 Delivered in Waco

Built by Elkhart Carriage & Motor Car Company

Before you place your order for an automobile, come in and see how good a car the ELCAR is for the money. The wheel base is 115 inches, which

makes it a large, roomy car of fine appearance, and, with its excellent spring suspension, a splendid driver and an easy rider on any road, rough or smooth.

The motor is powerful, developing 34.7 H. P. at 1,800 R. P. M, though not a large motor in size. It is, however, a modern and up-to-date motor of the long stroke and high speed type.

The electric starting and lighting system is the Dyneto two-unit, with Willard storage battery and double-bulb head lights. The Delco automatic spark advance ignition s used, which is an installation that speaks

The ELCAR has a multiple dry disk clutch, Raybestos on steel, so fine acting that, together with the quietness and ease with which the gears shift, contributes much to the satisfaction and pleasure of driving.

727 Washington Street

The rear axle is full floating, with roller bearings at each end of the wheel hubs. The driving gears are strictly high grade spiral bevel, such as go in the high priced cars. The body styles must be seen to be appreciated. Small illus-

Buy your car as you would buy your home

OOK at the buying of your car as you would look at the buying of your home. You can find a house at almost any price you would care to pay. But there are certain necessities you must have if that house is to be a home. You wouldn't, for example, try to get along in tiny, cramped up, uncomfortable rooms. Neither would you live in a house with cheap plumbing, inferior woodwork, ill-fitting doors and rattling windows.

Without going into luxuries, there are certain necessities you must have to justify your calling your house a home—a place you will be proud to own.

It is the same with your car. It must have a certain amount of size, roominess and wheel-base to make it really comfortable and free you from the need of constant apologies. It must have materials of a certain quality to insure its lasting the proper time to justify your investment in it. It must have the proper weight to make it hold the road. It must seat all its passengers in comfort.

You wouldn't buy a house that lacked the real necessities because it cost a few dollars less. Even so it is false

economy to buy a car that lacks the essentials of motoring satisfaction because it is cheap to buy.

In the Series 18 Studebaker Cars you get all the needed essentials of complete motoring satisfaction at the lowest possible price.

When you realize that Studebaker, one of the largest producers of cars in the world, enjoying all the economies of great production and great resources, makes a smaller percentage of profit per car than the small car manufacturers, it is obvious that Studebaker includes in its cars those features that small cars must curtail; and quality, both of material and workmanship, that you cannot reasonably expect to find in small cars at their prices.

What is a small initial saving compared to a great sacrifice? Be wise-before you decide what car to buy see the Studebaker.

Nearly every automobile manufacturer has made an increase in prices, but Studebaker prices still remain the same as they were last Spring. This further increases the value of Studebaker cars in comparison with all others.

There will be no change in Studebaker models this year, but the increased cost of materials and labor may force Studebaker to make an advance in prices at any time without notice.

Rain---Prosperity AND Oakland

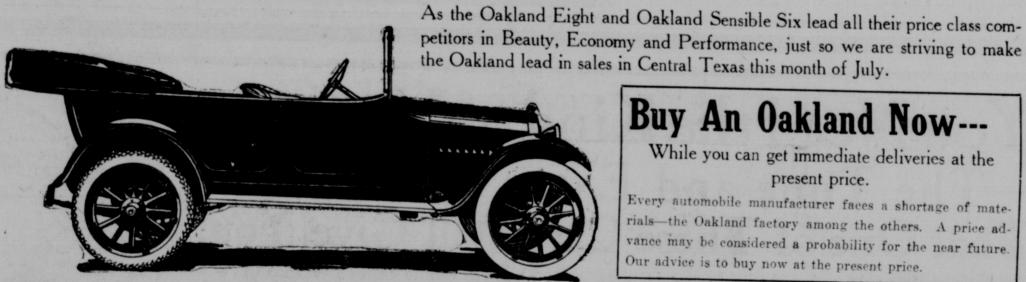

The blanket of Rain which covered Central Texas territory this past week has given a guarantee of a good cotton crop in almost the whole of this section.

Coupling this promise of Prosperity with the coming Army Cantonment, the people of this section have every reason to face the future with confident optimism. It is good to know that

Prosperity Still Smiles on Central Texas!

—and now is the time of all times that you should possess an automobile. Prosperity is not accidental, but a result of definite causes. -To prosperity of Central Texas the Oakland has contributed very materially. Not accidentally, but as a result of the built-in features of goodness which have made the Oakland so popular. It is a Time-Saver and Efficiency-Creator without a peer. Each Oakland owner is a more valuable citizen for having owned this car.

July Is OAKLAND Month---

Buy An Oakland Now---

While you can get immediate deliveries at the present price.

Every automobile manufacturer faces a shortage of materials-the Oakland factory among the others. A price advance may be considered a probability for the near future. Our advice is to buy now at the present price.

The Army Cantonment--and the Automobile

The arrival of Uncle Sam's soldier boys in Waco will mean a still further stimulus to business here. Those who are best prepared can serve their country best-and profit most.

It is real patriotism to prepare for better and more efficient service in whatever business you are engaged.

The motor car is invaluable in modern warfare—and in modern business. It doubles the time, and efficiency, of the user.

The Herrick & McLarty used cars are not of the ordinary second-hand variety. Every car is repaired and put in good running order. Every car is a rare bargain at our Clearance Sale prices. Used car values are "going up" -take advantage of this sale today:

Comforts and Conveniences Necessary to

follow system of treatment that is said to bring truly remarkable results for others, and it will be easy to prove what it can do for you.

Go to your druggist and get a small box of oil of korein capsules. Take one capsule after each meal and one before retiring at night; also follow the other simple directions that come with the capsules.

This method should reduce your weight ten to sixty pounds (or whatever you wish) in a short time and leave your general health and figure greatly improved.

You will be amazed at the improvement in your mind as well as your body when you have begun to reduce your weight.

Oil of korein is absolutely harmless, is pleasant to take, and this treatment is surely worthy of a fair trial if you want to become thinner, healthier and younger in appearance.

HOPKINS CARRIAGE SHOP, station the mail man vies among the and suggested that a ststerhood be 2,000 strong who are shaping Uncle Sam's training city on the double quick. An additional three thousand workmen will join the force as housing facilities are made for them in order to insure the building of fifteen hundred camp structures before September 1.

E. P. Lenahan, in charge of construction for the contracting company, estimated that a schedule of thirty completed buildings a day will have to be maintained when camp forces and work swings to maximum proportions. At present the camp is a closely guarded beehive, webbed by eight miles of railroad yards. Five camy locomotives shunt their long trains of material cars to the various unloading stations from 7 a. m. until late at night, automobiles and horsemen scurry through the maize of camp streets that have already been laid out and great piles of matched lumber grow along the sidings only to melt under the attack of workmen. By Unit System.

Construction is divided into the unit system. One company of men advance over the site to dig post holes for building foundations at points designated by engineers; a second follows close on their heels to set the posts; a third erects the framework; a fourth boards it up; a fifth stretches weather proof material and finishes the interior flooring and walls; a sixth roofs the building and a rear guard equipped with paint buckets finishes the job. At present work on a mile long line of bunk houses and mes halls for workmen is the feature. Stables are going up, water tanks are climbing to give fire protection, and a network of telephone and telegraph wires are connecting the completed buildings. A branch postoffice under the control of Postmaster W. H. Hefferan of Rockford has been established in camp and a permanent branch employing fifteen clerks will be installed before troops

The organization that makes the gigantic task possible is briefly this: All construction is under the direct charge of Contracting Quartermaster Major Dwight H. Sawyer. His military organization is made up of a government field auditor and force of fifty men who check up each inch of material and each minute of labor that goes into the work; two hundred men in Company A. First Illinois Engineers, in command of Capt. C. C. Saner, who make plans, survey, locate water mains and meet other enginering problems; a unit of thirty-three heavy army motor trucks manned by seasoned drivers direct from

scientific methods employed in form- on military policy are to be given.

The Telephone's Triple Duty

The telephone system in Wacc-like the telephone systems of all this country today-has had three great duties placed upon it by the war-

It must furnish efficient telephone service to the army and to the government -upon which depends the safety of the nation.

It must furnish efficient telephone service to the public-that business may be

It must supply skilled telephone men for the Signal Service Corps of the army.

As to The Texas Telephone Company—

Our material is assembled for the Camp MacArthur telephone exchange and for the lines to it; we are ready for the call to go to work. The wire company for a field battalion of the signal service, organized in Waco from Independent telephone men, and at our expense, is completed, sworn in and ready for training and the field. We have orders on file with every manufacturer of telephone material in this country for apparatus and equipment to meet promptly the constantly growing demands of the public for telephone service.

BUT-!

THERE HAS BEEN AN EXTRAORDINARY INCREASE IN LOCAL TELE-PHONE CALLS IN WACO. We are handling an average of 74,155 local connections daily this month, as compared with a daily average of 62,845 in June-an increase in one month of almost 20 per cent.

No telephone company in this country, under present conditions, can keep up with such a rate of increase.

To secure skilled telephone workers now, and to obtain material and new apparatus for extensions, is practically impossible. We cannot get the equipment with which to take care of a heavy traffic increase. The manufacturers themselves cannot get even the raw material with which to make new equipment. The needs of the government and of the army must come first!

These are extraordinary times—and necessitate extraordinary measures to deal with situations arising in all business affairs, and especially in the affairs of public utility companies.

Will You do a Part of Your "Bit" by Helping Us do Ours?

Use your telephone, for local calls, only when necessary.

Think twice before you call.

CUT OUT THE WASTE IN TELEPHONE SERVICE—the same as you are cutting the waste in food, in clothing and in all things.

The Waco plant was built with sufficient capacity for more than a normal load of traffie-but this is an extraordinarily abnormal load. The larger switchboard and the extra equipment we need to carry it, we cannot obtain at this time. Give us a margin of service-a reserve-with which to supply the service needs of Waco's Army Camp, by eliminating unnecessary local telephone calls.

Please Cut Out the Waste in Telephone Service

THANK YOU.

The Texas Telephone Company

COFFEE

Is not a result of mere chance. It is a result of painstaking care and expert knowledge in the selection of the proper grades of perfectly matured coffee berries, and in the "know how" of blending, roasting and grinding and finally in packing so that, as in

Cooper's Best Coffee

All the Delicious Properties Are Retained

-No doubt you have read in the advertisements of some substitute for coffee, that coffee is harmful to drink. But so is water, drunk to excess, under certain conditions.

And did you ever know of a substitute as satisfactory as the "real thing?" Of course not.

That's the Reason why it is a substitute.

TRUSTEES ARE TO MEET

District and county trustees of Mc-Lennan county will meet at the court house Monday. August 6, at 9 o'clock, and discuss ways and means for im-The purity of the drink is the result proving the schools of the county.

A number of matters will be discussed, states County Superintendent tan Tonic an ideal temperance bever- R. L. Abbott, among these being the pulsory school attendance law, irregularity of attendance in rural schools, employment of adequately prepared teachers, and many other matters. All persons interested in educational matters are invited to be present.

WILL TALK FORESTRY AT WEDNESDAY MEET

The Waco Lions will give special attention to forestry, at the meeting Wednesday at 12:15, and one or two experts will be present to deliver ad-

There will be fifty to one hundred guests at the meeting, from various organizations. Waco's superb shade trees are expected to be benefited from the talks made, and action taken. "The Value of Shade Trees, and Their Care," will be the subject of an address by F. K. McGinnis, city forester of Dallas.

London, July 21.-Increase in wages and war bonuses taking effect in May resulted in a total increase of \$227,500 a week and affected more than 290,000

DALLAS PITCHER IS RESPONSIBLE **FOR HIS OWN WIN**

NOT ONLY PITCHES EXCELLENT BALL, BUT ALSO BATS IN RUNS.

BY POP BOONE.

We got submarined again yesterday -- shot in the back; blowed up from an unexpected source; a ghostly hand in the dark and all that. While Mr. Sims was expending all his energies in keeping the heavy artillery of the Subs from swamping him, the auxilliary battery on the tail-end of the batting order slipped up behind him and blowed him clear out of the The casualty list showed a total of 3 to 1 in favor of the Subs.

At that, nearly all of the runs followed errors. Sims cost himself a run with a wide heave to first. He lost another from Demarce 1. a walk to Litschi, who looks as bad at the bat right now as Professor Ogle used to look in his unhittingest days. But Sims' loss came from unexpected blows by who looks more like he ought to be leaning gracefully over a counter asking "how many yards, please?" instead of pitching winning baseball, knocking two-baggers and singles and things and taking perfectly good ball games away from us.

This Jacobus has been winning many Clarke, c. games for Dalles since the Galveston club Mitchell, p blew up and he joined on Doc White's gang. But he has been showing steady improvement and threatening to win the

Buddie, the first baseman foozled one to Sims. Vann advised Ralph to take plenty of time, which he did—and chunked the bancroft, making second. From this advantageous position he leped home when Red Kuhn singled to left.

Waco had chances to score in the fifth and sixth, but after that Jacobus hung lutthe nothing-doing sign, retired for the wening and pitched about ten balls to be inning.

NAVS AND BUFFS CLASH IN DOUBLE-HEADER TODAY; FIRST GAME AT 3 O'CLOCK

Those old foes of the grass-arena. Nav and Buff; those tough old birds who have been fighting it out for y'ahs and y'ahs, with never a holler for quarter from either side—these battle-scarred vets of the Texas league first division will make more Sunday double-history this afternoon when they hook up at Katy Park. The first game will be called at, 3 o'clock and if the pitchers work their turn should be fought out between Criss and Dick Blunk. Just who will work in the second affray is problematical, but Manager Hardy may show Davis to local fans. Both elubs are going good and the crowd ought to see a pair of hardfought contests, especially as Houston is scrapping to stick in second place.

Matty has made a good manager.

But Matty fooled 'em. He has the

Reds shaped into a first class ball

division. They may not win the pennant this year, but they will be close

up-and they certainly make a heap of

poor manager.

MARKET REPORTS MINIATURE WEST POINT TO BE ESTABLISHED

a demand from trade interests caused subsequent advances to 25.05 for October, but later in the day a big selling movement developed which caused more or less demoralization and broke October to 24.53 and December to 24.43, the close being irregular at a net loss of 37 to 50 points. A good deal of the cotton bought yesterday on peace rumors and today on bullish eastern belt news came out on this decline.

GRAIN AND PROVISIONS.
Chicago, July 21.—The wheat market losed strong, 5c to 94c net higher with uly at \$2.55 and September \$2.274.
Week-end profit taking brought about eclines in corn.
The close was heavy, with September 1.63 to \$1.634.

TO BE ESTABLISHED AT NEW BOYS "WAR" CAMPS

NEW ORLEANS COTTON.

New Orleans, July 21.—The opening in otton here today was on the downward tend and prices fell off 28 to 36 points in early 'trading. Febr that too much aim was falling in the eastern section of he belt brought in buying orders, which erulted in a recovery. At the end of the irst half hour active months were 1 point pt to 2 down compared to yesterday's lose.

A demand from trade interests caused ubsequent advances to 25.05 for October, training in American schools at the

camp have arranged instruction which will enable those who successfully take the course to command military com-

panies in their schools. On the enrollment lists are the names of boys from Illinois, Iowa, Missouri, Arkansas, Kentucky, North Dakota, Wisconsin and Minnesota.

Behind the project are patriotic business men who are financing the camp in the belief that continuance of milltary training in the public schools is essential in the present war.

Discussing the camp, Captain Kensel ted diversion, but the days will be well occupied with the instruction which a

soldier needs." So far as possible the boys will be given instruction in every activity of a from 5 a. m. to 9 p. m. Setting up exercises, and the manual of arms wil be first attacked and then will come the school of the soldier, the care of his equipment and arms. Then the school of the squad and how to command a company.

First Showing of the New 1917 Fall Models Royal Society Packages

Two of the most important events of the year in the Art Needle Work Department are the first showing of the Spring and the Fall lines. Monday we present the complete Fall line of Royal Society Package Goods and a great number of finished models, showing how the stamped pieces look when finished. Gowns, Combinations, Teddies, Kimonos, Dressing Sacques, Infants' Dresses, Children's Dresses, Pillow Tops, Centers, Scarfs, are just a few of the many items in our new Fall showing of Royal Society Packages. See our special window display of finished models and come early Monday for the best choosing. You'll be better pleased than ever with the new Fall Royal Society Packages, as the showing is the best ever. Royal Society packages are priced from 25c to \$1.50 each and all the between prices.

Our Telephone Shopping Bureau

When you are unable to visit the Sanger Store in person, call Fortyfour Hundred over your telephone and ask for the Sanger Telephone Shopping Bureau. Orders will be filled from this or any Sanger advertisement and will be in the hands of experienced shoppers who will fill and forward your order on the next delivery. This is just one of the many conveniences that the Sanger Store offers to the people of this section in its efforts to make trading at this store a pleasure rather than a task.

MAIL ORDERS FILLED PROMPTLY.

No matter what distance you may live from this store, our Mail Order Department brings the many advantages of the Sanger Store to your door. Through this department you may take advantage of the many money saving opportunities that appear from time to time in our advertisements. Your orders will be filled by expert shoppers and forwarded to you the same day received. No order is too large for our capacity and none too small for our prompt and care-
